Progress – 1

On logging into the donor dashboard, the user is displayed with a donor badge alongside their username along with a welcome card. The dashboard shows the details of the number of donors and requests.

Progress – 2

On clicking the donate option, the donor can now see all the pending plasma requests and can choose to donate using the action provided alongside the request.

Progress – 3

On clicking the track request option, the user is prompted to enter the Tracking/Request ID in the dialogue box present. On clicking the Track button, they can track the status of their request

Once the above process is finished, the user is directed to a window which shows all the information that is associated with the ID entered.

Progress – 4

If the donor decides to donate by clicking on the 'Donate' button, they are redirected to a page where they are required to fill the donation form to book an appointment.
